

Project Deliverable 1 — Key Changes

Pakistani Regulatory Terminology – Core Replacements

Item	Original (Before)	Updated (Pakistan Context)
Primary tax ID	GSTIN	STRN (Sales Tax Registration Number – FBR)
Additional tax identifier	Not present	NTN (National Tax Number) added as distinct
STRN/GSTIN format rule	15-character alphanumeric	13-digit numeric (FBR standard)
Purchase receipt term	Purchase records / Invoice	Goods Receipt Note (GRN)
Tax rate reference	Generic “tax rate”	FBR GST rate (valid slabs: 0 / 5 / 12 / 18 / 28%)

Problem Statement & Scope – Localization Highlights

- Explicit naming of **DRAP** (Drug Regulatory Authority of Pakistan) and **FBR** (Federal Board of Revenue) as governing bodies.
- Replaced vague “compliance exposure” with Pakistan-specific regulatory framing.
- Scope narrowed to: **Medium to large pharmaceutical wholesale and distribution businesses operating in Pakistan.**

Core Features – Summary of Key Updates

Feature	Important Pakistan-Specific Changes
Products	Added DRAP drug schedule (OTC / G / H / H1 / X) + FBR GST rate + HSN code
Batches	MRP now batch-level (DRAP mandated); auto-created opening stock movement on batch entry
Suppliers	Fields: STRN + NTN + DRAP wholesale drug licence (replaces GSTIN)
Customers	Added mandatory customer type : Retailer / Wholesaler / Hospital / Clinic / Government
Expense Tracker	Payment modes: Cash / Cheque / Bank Transfer + JazzCash / EasyPaisa

Project Plan – Iteration 2 Updates

- “Purchase Invoice” → replaced with **GRN (Goods Receipt Note)** throughout.
- Explicitly lists **Customer & Supplier Ledgers** as key deliverables from Iteration 2.

User Stories – Compliance Alignment

- **Iteration 1:** Product story includes **DRAP schedule**, **HSN code**, **FBR GST rate**; Batch story enforces **MRP + 90-day minimum shelf life** guideline (DRAP).
- **Iteration 2:** References **GRN** instead of purchase invoice.
- **Iteration 3:** Payment modes explicitly include **JazzCash** and **EasyPaisa** alongside traditional options.

Iteration 1 / Sprint 1 — Key Changes

Project Introduction – Pakistan Context (New Section)

- Names **DRAP** and **FBR** as the core compliance framework.
- Highlights five Pakistan-specific capabilities:
 - STRN / NTN** identifiers
 - DRAP drug schedule** classification (OTC / G / H / H1 / X)
 - Batch-level **MRP** (mandatory)
 - 90-day minimum shelf life** guideline for incoming stock
 - JazzCash** + **EasyPaisa** payment modes

New Module Added to Sprint 1

- Manufacturer Master** (previously absent)
 - Now a first-class sub-module (sixth in Sprint 1)
 - Captures **DRAP manufacturing licence** + **country of origin**
 - Aligns with normalized schema (manufacturers table)

Sprint Backlog – Key User Story Updates

Story ID	Original Description	Updated Description (Pakistan Localised)
US-103a	Register supplier with GSTIN, license, payment terms	Register supplier with STRN, NTN, DRAP wholesale drug licence , payment terms
US-104a	Register customer with credit limit and territory	Register customer with credit limit, territory, and customer type
US-105a	Add batch linked to product & supplier with expiry info	Add batch linked to product & supplier with MRP and expiry info

Use Case Specifications – Terminology & Validation Fixes

- UC-103 (Suppliers) & UC-104 (Customers):** All **GSTIN** → **STRN**; **NTN** added as field; format rule corrected to “13-digit numeric Pakistani STRN”.
- UC-105 (Batches):**
 - MRP** mandatory field + note “(DRAP mandate)”
 - Acceptance criterion: Enforce **90-day DRAP minimum shelf life** on receivable stock
 - Postcondition: Auto-create **opening stock movement** in stock ledger on save

Sub-Story Specifications (4.6–4.9) – Main Changes

Sub-Story	Key Field / Rule Updates
US-102.1 (Product)	Fields: HSN code, FBR GST rate, DRAP drug schedule ; GST validation: 0/5/12/18/28
US-103.1 (Supplier)	Form: STRN, NTN, DRAP wholesale drug licence

Sub-Story	Key Field / Rule Updates
US-104.1 (Customer)	Customer type mandatory (Retailer / Wholesaler / Hospital / Clinic / Government)
US-105.1 (Batch)	MRP mandatory + DRAP note; auto stock movement documented

NFR-06 (Data Integrity) – Updated

- Prohibits duplicates: product names, **customer/supplier STRNs**, invalid **DRAP drug schedules**.

Implementation Screenshots – Description Updates

- **Products List:** Columns now include **DRAP Schedule + FBR GST Rate**.
- **Add Product Form:** **DRAP drug schedule** dropdown (OTC / G / H / H1 / X).
- **Suppliers List:** Columns: **STRN, NTN, DRAP drug licence**.
- **Customers List:** Added **customer type + STRN** filter.
- **Add Batch Form:** **MRP** field + **90-day guideline** warning.
- **Batch List:** Three-tier expiry status — **Critical** (red) / **Warning** (amber) / **Watch** (yellow).
- **Stock View:** Values shown at **MRP** (in addition to product-wise totals).
